

The 6th annual LCH Quality Improvement Coaching Conference (LCH QuICC) will be held in Charlotte, NC on **October 14-16, 2019**.

The purpose of the conference is to create an informal environment where fellows present current quality improvement projects and benefit from collaboration with both QI faculty and participants.

This is an opportunity for intensive QI coaching to advance providers' knowledge and skills in improvement science.

There is an emphasis on QI methodology, data management, and tools.

Through a combination of brief didactics, project presentations, and extensive discussion, participants will work on furthering their QI projects and prepare for future quality endeavors.

Tools and Special Topics

Effective Teams

Spread and Sustain

Fellows from ACGME-accredited fellowship training programs are invited to submit projects.

Projects at all stages of development are encouraged for submission. QI novices and/or early projects are welcome to apply.

The informal nature of this meeting allows for ample project development and networking with other engaged fellows and faculty. We invite all attendees to join us for an opening reception with Levine Children's subspecialty division chiefs.

The Atrium Health Foundation will fund the cost of transportation, lodging, and most meals for all participants.

LCH QuICC will be held at The Westin Uptown Charlotte.

Opportunities include additional individual coaching and in-depth lectures, as well as local Charlotte attractions.

This program is based on our award-winning QI curriculum. Hear what a past participant has to say: *"This conference was fabulous! Well organized, practical, informal, and informative. Thank you for the opportunity to attend."*

For more information, see your training program director or contact Sarah Mabus sarah.mabus@atriumhealth.org.

Application deadline: **May 16, 2019**
