## CLEVELAND AMBULATORY SURGERY CENTER DELINEATION OF CLINICAL PRIVILEGES Plastic Surgery

Applicant's Signature	Date

The granting, reviewing and changing of clinical privileges will be in accordance with the Medical Staff Bylaws. Assignment of such clinical privileges must be based upon education, clinical training, demonstrated skills and capacity to manage procedurally related complications.

Indicate procedures for which you do and do not wish to be credentialed. Return this form with your Application.

Yes No Cyst excision Closed reduction nasal fractures Biepharoplasty Face lift, full, modified Face peel Dermabrasion Flap revision, release Hair transplant Chin implant Basal cell excision Tattoo excision Scar revision Nevus excision Lesion excision Incision and drainage Skin graft Otoplasty Cleft ear lobe repair Contracture release Eyelid revision Keloid resection Laceration suturing Debridement Lip reconstruction Mentoplasty Neuroma excision Rhinoplasty Septoplasty Neuroma excision Roll excision Surversion Roll excision Roll	Procedures	Credentiali	Credentialing Request		Recommendation by QM Committee	
Closed reduction nasal fractures Blepharoplasty Face lift, full, modified Face peel Dermabrasion Flap revision, release Hair transplant Chin implant Basal cell excision Tattoo excision Scar revision Nevus excision Lesion excision Incision and drainage Skin graft Otoplasty Cleft ear lobe repair Contracture release Eyelid revision Laceration suturing Debridement Lip reconstruction Mentoplasty Septoplasty Neuroma excision Rhinoplasty Septoplasty Septoplasty Nasal reduction, closed, open		Yes	No	Yes	No	
Biepharoplasty   Face lift, full, modified   Face peel	Cyst excision					
Face peel Dermabrasion Pflap revision, release Hair transplant Chin implant Basal cell excision Tattoo excision Scar revision Nevus excision Incision and drainage Skin graft Otoplasty Cleft ear lobe repair Contracture release Eyelid revision Keloid resection Laceration suturing Debridement Lip reconstruction Mentoplasty Septoplasty Nasal reduction, closed, open	Closed reduction nasal fractures					
Face peel Dermabrasion Flap revision, release Hair transplant Chin implant Basal cell excision Tattoo excision Scar revision Nevus excision Lesion excision Mass excision Incision and drainage Skin graft Otoplasty Cleft ear lobe repair Contracture release Eyelid revision Keloid resection Laceration suturing Debridement Lip reconstruction Mentoplasty Neuroma excision Rhinoplasty Septoplasty Nasal reduction, closed, open	Blepharoplasty					
Dermabrasion Flap revision, release Hair transplant Chin implant Basal cell excision Tattoo excision Scar revision Nevus excision Lesion excision Mass excision Incision and drainage Skin graft Otoplasty Cleft ear lobe repair Contracture release Eyelid revision Keloid resection Laceration suturing Debridement Lip reconstruction Mentoplasty Neuroma excision Rhinoplasty Septoplasty Nasal reduction, closed, open	Face lift, full, modified					
Flap revision, release Hair transplant Chin implant Basal cell excision Tattoo excision Scar revision Nevus excision Lesion excision Incision and drainage Skin graft Otoplasty Cleft ear lobe repair Contracture release Eyelid revision Keloid resection Laceration suturing Debridement Lip reconstruction Mentoplasty Neuroma excision Mentoplasty Septoplasty Nasal reduction, closed, open	Face peel					
Hair transplant Chin implant Basal cell excision Tattoo excision Scar revision Nevus excision Lesion excision Incision and drainage Skin graft Otoplasty Cleft ear lobe repair Contracture release Eyelid revision Flap revision Keloid resection Laceration suturing Debridement Lip reconstruction Mentoplasty Neuroma excision Rhinoplasty Septoplasty Nasal reduction, closed, open	Dermabrasion					
Chin implant  Basal cell excision Tattoo excision Scar revision Nevus excision Lesion excision Mass excision Incision and drainage Skin graft Otoplasty Cleft ear lobe repair Contracture release Eyelid revision Keloid resection Laceration suturing Debridement Lip reconstruction Mentoplasty Neuroma excision Rhinoplasty Septoplasty Nasal reduction, closed, open	Flap revision, release					
Basal cell excision         ————————————————————————————————————	Hair transplant					
Tattoo excision  Scar revision  Nevus excision  Lesion excision  Mass excision  Incision and drainage  Skin graft  Otoplasty  Cleft ear lobe repair  Contracture release  Eyelid revision  Flap revision  Keloid resection  Laceration suturing  Debridement  Lip reconstruction  Mentoplasty  Neuroma excision  Rhinoplasty  Septoplasty  Nasal reduction, closed, open	Chin implant					
Scar revision                           Nevus excision                         Mass excision                         Incision and drainage                         Skin graft                         Otoplasty                         Cleft ear lobe repair                         Contracture release                         Eyelid revision                         Flap revision                         Keloid resection                         Laceration suturing                         Debridement                         Lip reconstruction                         Mentoplasty                         Neuroma excision                         Rhinoplasty                         Septoplasty                         Nasal reduction, closed, open	Basal cell excision					
Nevus excision	Tattoo excision					
Lesion excision	Scar revision					
Mass excision Incision and drainage Skin graft Otoplasty Cleft ear lobe repair Contracture release Eyelid revision Flap revision Keloid resection Laceration suturing Debridement Lip reconstruction Mentoplasty Neuroma excision Rhinoplasty Septoplasty Nasal reduction, closed, open	Nevus excision					
Incision and drainage  Skin graft  Otoplasty  Cleft ear lobe repair  Contracture release  Eyelid revision  Flap revision  Keloid resection  Laceration suturing  Debridement  Lip reconstruction  Mentoplasty  Neuroma excision  Rhinoplasty  Septoplasty  Nasal reduction, closed, open	Lesion excision					
Skin graft Otoplasty Cleft ear lobe repair Contracture release Eyelid revision Flap revision Keloid resection Laceration suturing Debridement Lip reconstruction Mentoplasty Neuroma excision Rhinoplasty Septoplasty Nasal reduction, closed, open	Mass excision					
Otoplasty Cleft ear lobe repair Contracture release Eyelid revision Flap revision Keloid resection Laceration suturing Debridement Lip reconstruction Mentoplasty Neuroma excision Rhinoplasty Septoplasty Nasal reduction, closed, open	Incision and drainage					
Cleft ear lobe repair Contracture release  Eyelid revision Flap revision Keloid resection Laceration suturing Debridement Lip reconstruction Mentoplasty Neuroma excision Rhinoplasty Septoplasty Nasal reduction, closed, open	Skin graft					
Contracture release Eyelid revision Flap revision Keloid resection Laceration suturing Debridement Lip reconstruction Mentoplasty Neuroma excision Rhinoplasty Septoplasty Nasal reduction, closed, open	Otoplasty					
Eyelid revision Flap revision Keloid resection Laceration suturing Debridement Lip reconstruction Mentoplasty Neuroma excision Rhinoplasty Septoplasty Nasal reduction, closed, open	Cleft ear lobe repair					
Flap revision  Keloid resection  Laceration suturing  Debridement  Lip reconstruction  Mentoplasty  Neuroma excision  Rhinoplasty  Septoplasty  Nasal reduction, closed, open	Contracture release					
Keloid resection  Laceration suturing  Debridement  Lip reconstruction  Mentoplasty  Neuroma excision  Rhinoplasty  Septoplasty  Nasal reduction, closed, open	Eyelid revision					
Laceration suturing  Debridement  Lip reconstruction  Mentoplasty  Neuroma excision  Rhinoplasty  Septoplasty  Nasal reduction, closed, open	Flap revision					
Debridement  Lip reconstruction  Mentoplasty  Neuroma excision  Rhinoplasty  Septoplasty  Nasal reduction, closed, open	Keloid resection					
Lip reconstruction  Mentoplasty  Neuroma excision  Rhinoplasty  Septoplasty  Nasal reduction, closed, open	Laceration suturing					
Mentoplasty Neuroma excision Rhinoplasty Septoplasty Nasal reduction, closed, open	Debridement					
Mentoplasty Neuroma excision Rhinoplasty Septoplasty Nasal reduction, closed, open	Lip reconstruction					
Rhinoplasty Septoplasty Nasal reduction, closed, open	Mentoplasty					
Septoplasty Nasal reduction, closed, open	Neuroma excision					
Nasal reduction, closed, open	Rhinoplasty					
Nasal reduction, closed, open	Septoplasty

## **DELINEATION OF CLINICAL PRIVILEGES - Plastic Surgery - (continued)**

Procedures	Credentialing Request		Recommendation by QM Committee	
	Yes	No	Yes	No
Wedge resection				
Wedge resection in general (facial)				
Z-plasty				
Z-plasty in general				
Zygoma reduction, closed				
Palatal repair, minor				
Liposuction, head and neck and general body				
Staged reconstruction				
Osteoma				
Malar augmentation				
Forehead lift				
Breast Augmentation				
Body Liposuction				
Monitoring of patients undergoing local infiltration anesthesia				
Monitoring of patients undergoing conscious sedation				
Dressing change				

For Administrative Purposes Only	
Clinical privileges recommendations approved by Governing Body.	
Facility President	Date
