

Derek Raghavan, MD

President, Levine Cancer Institute
Atrium Health

Leadership Profile

Derek Raghavan, MD, PhD, FACP, FRACP, FASCO, FAAAS, is president of the Levine Cancer Institute at Atrium Health, one of the most comprehensive and highly integrated not-for-profit healthcare systems in the nation. As a member of the executive council, Dr. Raghavan is at the forefront of Atrium Health's commitment to world-class oncology care.

With more than 25 years of experience in senior-level roles in oncology, Dr. Raghavan joined Atrium Health in 2011. Previously, he served as the director and Frank Rudy distinguished chair at the Taussig Cancer Institute of Cleveland Clinic, chair of medical oncology and associate director of clinical research at the University of Southern California Norris Comprehensive Cancer Center and professor and chair of solid tumor oncology and investigational therapeutics at Roswell Park Comprehensive Cancer Center.

Among many achievements, Dr. Raghavan received the Frank Moran Award for Leadership in Cancer Research from the University of Michigan and has been elected as a fellow of both the American Association for the Advancement of Science and the American Society of Clinical Oncology. He has served as chair of the National Cancer Institute (NCI) Clinical Investigations Review Committee, chair of the Veterans Administration Merit Review Board in Oncology and has been a member of the FDA Oncology Drug Advisory Committee and the NCI Clinical Oncology Review Section.

Dr. Raghavan has also been a member of editorial boards for the *Journal of Clinical Oncology*, *Clinical Cancer Research*, *European Journal of Cancer*, *Annals of Oncology* and many others, and is the Editor-in-Chief (medical oncology) of *HemOnc Today*. He has published more than 300 papers and 12 books, with areas of focus including heterogeneity of tumor function, biology and management of cancers of the bladder, testis and prostate, new drug development in lung cancer, value in oncology and geriatric oncology.

Dr. Raghavan was trained in Australia and was awarded a research doctorate in medicine from the University of Sydney in 2012. He completed his doctorate at the University of London and undertook post-doctoral research at the University of Minnesota.
