

The Atrium Health & Wingate University Neurologic Physical Therapy Program

An accredited program recognized by the American Board of Physical Therapy Residency and Fellowship Education

Training exceptional physical therapists in advanced neurological physical therapy

Have you been thinking about a way to jumpstart your clinical skills and expertise in the treatment of individuals with neurologic diagnoses across the continuum of care?

Are you considering becoming board certified as a Neurologic Clinical Specialist?

If so, it's time to consider enrolling in Atrium Health & Wingate University's Physical Therapy Neurologic Residency Program.

Highlights include:

- Nine clinical mentors with over 140 years of combined experience treating patients with neurologic diagnoses
- Ability to rotate through the continuum of care including our level III trauma center at Carolinas Medical Center's Main Campus, inpatient rehabilitation at Carolinas Rehabilitation-Charlotte and neuro outpatient rehabilitation at Carolinas rehabilitation-Blythe
- Exposure to various specialized clinics including ALS, Seating/Positioning, Post-Polio and MD
- Exposure and utilization of advanced technology including, but not limited to: Lokomat, RTI-300 FES cycle, Bioness L300, Reha's G-EO and Rewalk
- Teaching opportunities at Wingate University
- Research opportunities at Atrium Health
- A unique and progressive curriculum model with in person seminars led by expert practicing clinicians with supplemental lectures by Wingate University faculty and the national Neurologic Consortium Webinar series.

Rolling Admission: www.ABPTRFE.org/RFPTCAS

Start Date: First Monday of June
