Wings to Soar Camp can help your child or teen deal with the death of a loved one. Experiencing such a loss can be especially difficult for children in today's fast-moving world. We help them understand death and cope with their grief in a positive way.

Wings to Soar provides group, individual and family sessions, and a fun camp environment with plenty of laughter and enjoyment. Activities are led by trained hospice professionals and volunteers experienced working with grieving children and teens. Counseling services are available to anyone who has suffered a loss, regardless if they utilized hospice services.

**We teach them that grief isn't about
forgetting someone, but about remembering
that person with less pain.**

If you know a child or teen who has lost a loved one or to volunteer, please contact:
