

## ***The Center for Prevention Science in Child & Family Health***

### **Membership Invitation**

#### ***A Call for Members!***

#### **About the Center:**

The Center for Prevention Science in Child and Family Health, one of the newest research centers at Wake Forest University School of Medicine and the first with a focus on children and families, provides infrastructure and support to explore the complex family systems involved in prevention and child and family health. The long-term goal is to establish a nationally recognized center investigating the influence of family on chronic disease prevention. By collaborating with other research centers and programs across Wake Forest University School of Medicine, the center will further elucidate the importance of the family in health. The initial priority areas of study will be lifestyle behaviors and obesity, social determinants of health, and health services research.

#### **Membership Requirements:**

- Agree to participate in a Center meeting at least once yearly, and;
- Agree to participate in at **least one** of the following activities on an annual basis:
  - a. Manuscript or grant review for other members
  - b. Submit a grant through the Center
  - c. Attend a Center event: visiting speaker presentation, Annual Research Symposium, or other scheduled event
  - d. Participate in a Center consultation
  - e. Contribute to Center's Virtual Research Library (collection of literature and research methods pertinent to prevention science and child/family health)
  - f. Assist in planning any of the center activities
  - g. Attend an Early Stage Investigator or Works-in-Progress meeting.

#### **Membership Benefits:**

- Stay up to date with Center grant applications, events, and Visiting Professors
- Access to Center's Virtual Research Library (collection of literature and research methods pertinent to prevention science and child/family health)
- Assist in planning center activities
- Opportunities to review a pilot or boost award proposal
- Networking Opportunities
- Invitations to Early Stage Investigator or Works-in-Progress meetings

**Become a member today:** Please submit a request on our website <https://school.wakehealth.edu/research/institutes-and-centers/center-for-prevention-science-in-child-and-family-health> - can occur anytime during the year (rolling) .
