

Saving Dragon Command as Auto Text

Dragon Commands can and should be saved as Auto Text to ensure that the data is not lost if Dragon is unavailable or your user profile becomes corrupted.

- Insert Dragon Command
- Highlight text
- Right Click
- Select “Save as Auto Text”

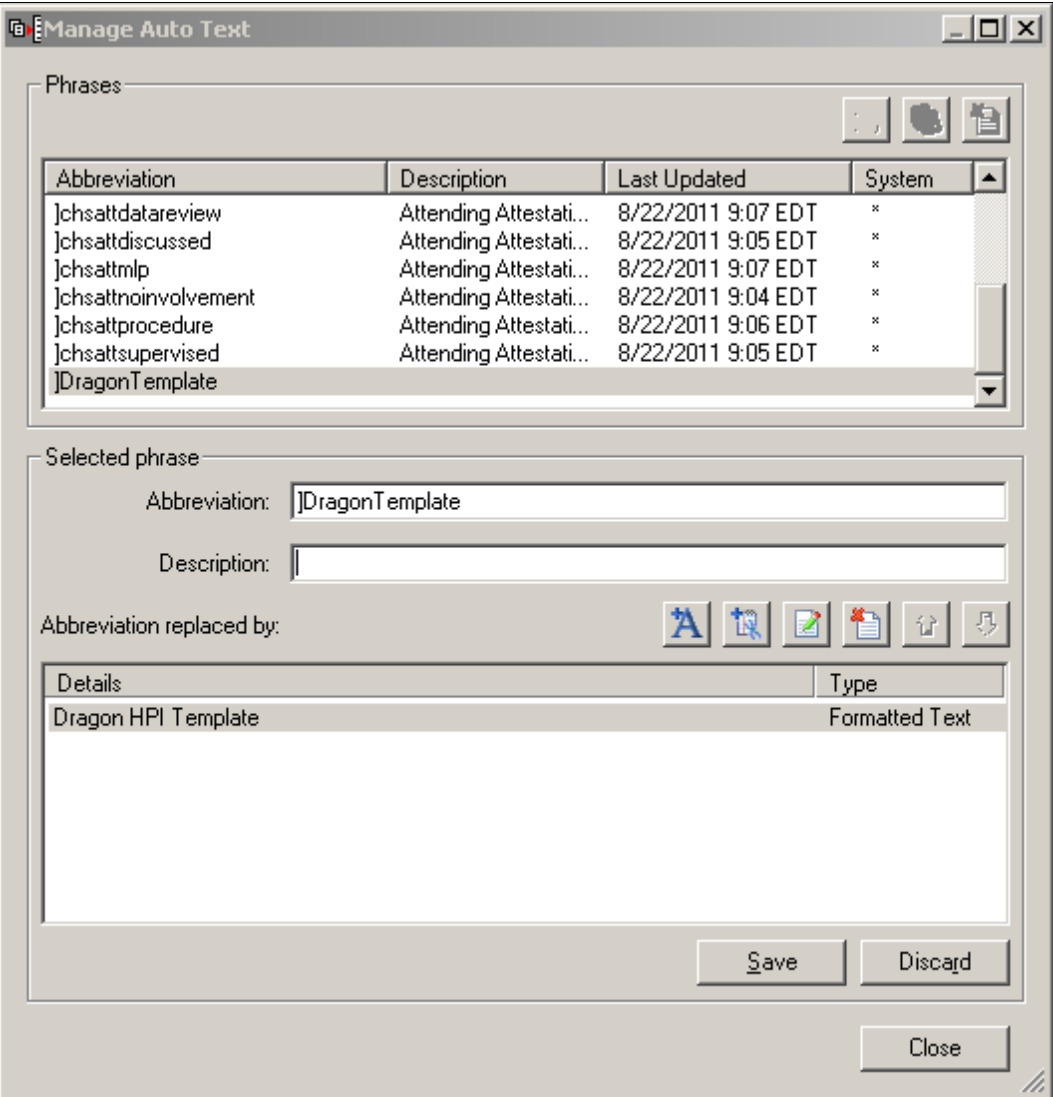

This brings up the “Manage Auto Text” dialog box

- Enter abbreviation (name of auto text)
- Enter Description
- Select Save

**This will be a user specific auto text. Recommend using a character to begin the autotext to ensure that during normal use the autotext does not pop up and create confusion.

ED specific autotext is beginning with the]**

Auto Text can be used within PowerNote and Message Center
