## Kings Mountain Hospital

Founded in 1951, Kings Mountain Hospital serves one of the fastest growing communities in Cleveland County, North Carolina. It is an integral part of the Cleveland County HealthCare System (CCHS), which includes Cleveland Regional Medical Center and Crawley Memorial Hospital.

Utilizing the talents of a highly qualified team of physicians and clinical staff, the 102-bed, 124,374-square-foot facility offers a wide variety of healthcare services that allow residents to receive sophisticated, convenient care. Services include emergency treatment, behavioral health, diagnostics, pain management, intensive care, radiology, rehabilitation, and orthopaedic, general, vascular and plastic surgeries.

An accredited Chest Pain Center, Kings Mountain Hospital Emergency Department staff demonstrates the expertise and commitment to quality patient care by continuing to enhance services for our community.

The mission of Cleveland County HealthCare System is to provide high quality healthcare services to patients in every community served by CCHS facilities, with an emphasis on safety and top notch customer service. Kings Mountain Hospital has more than 300 staff and more than 200 active and consulting physicians, all dedicated to uncompromising excellence and commitment to care – every patient, every day, always. It's who we are at Kings Mountain Hospital.
