

MedWest-Harris

MedWest-Harris is an 86-bed acute care facility located in Sylva, North Carolina. The hospital's primary service area covers Jackson, Macon, Swain and Graham counties of western North Carolina.

MedWest-Harris is a short-term, acute care facility. The hospital offers many services, including inpatient and outpatient surgery, imaging services, wound care, laboratory services, cardiac and pulmonary rehabilitation, occupational health, and sports medicine.

MedWest-Harris also offers an outpatient medical office building, Harris Medical Park, and an outpatient facility in Franklin (Macon County). MedWest-Harris operates Mountain Regional Cancer Centers, two state-of-the-art radiation therapy facilities providing a full range of comprehensive radiation therapy services, and is opening an urgent care center in the summer of 2011.
