Her early career was spent working for nonprofit agencies who supported people with developmental disabilities, but she transitioned into higher education 13 years ago. She has extensive experience in online and face-to-face instruction as well as higher education administration. She and her husband, Monty, have been happily married for 11 years and although they don't have any biological children, she has a beautiful bonus daughter named Alisah. ALUMNI/STUDENT MENTORING PROGRAM NEEDS YOU!

"One of the greatest values of mentors is the ability to see ahead what others cannot see and to help them navigate a course to their destination." — John C. Maxwell

Attention second-year (RT), second-semester (all 1-year programs), or intermediate (nursing) students... Looking for advice, encouragement and/or support from someone who has recently walked in your shoes? The CCHS Alumni Association and its Young Alumni Council invites you to participate in the Alumni/Student Mentoring Program.

This optional mentoring program is open to second-year (RT), second-semester (all 1-year programs), or intermediate (nursing) students and pairs you with a Young Alumnus from your same program. (The term Young Alumni refers to those who have graduated within the past ten years.)

The program will provide you with a personal professional resource in your field of study with whom you'll have an opportunity to: foster a positive personal relationship, but on a less formal basis than your clinical interactions; possibly shadow and gain a real-world perspective of your future career path; contact for advice and encouragement.

What can you expect from your mentor?

- Your mentor will contact you first to introduce themselves via email or phone or to arrange a meeting.
- Your mentor will check-in on a regular basis with you until you graduate – but it is acceptable (and highly encouraged) for you to touch base as well as the need arises. Communication will primarily be via email or phone.
- Your mentor may be able to arrange for you to shadow them at work.
- Both you and your mentor are expected to uphold the overall Atrium Health standards of Caring, Commitment, Integrity and Teamwork throughout the mentoring process.

While students are paired with alumni from their same program only (i.e. Nursing to Nursing, Rad Tech to Rad Tech), it might be possible to pair based on the students area of interest.

Would you like to participate? If so and you are a second-year (RT), second-semester (all 1-year programs), or intermediate (nursing) student, please email Ruthie Mihal at Ruthie.Mihal@AtriumHealth.org. Also, if there is a particular department or field that interests you – please note that info in your email as well. Ruthie will do her best to make those pairings. If you have no preference – that's fine too!

2019 Chaplain's Grand Rounds - Ethical Decisions in Complex Times - January 17. This **FREE**, nine-part lecture series will be conducted in the Suzanne Hill Freeman Auditorium on the campus of Carolinas Medical Center every 3rd Thursday of the month from noon to 1 PM. Feel free to bring your lunch. The theme of the series acknowledges that medical decision making is getting ever more complicated. Best medical practice too often collides with the wishes of patients and family members. Nuances of care can challenge existing policies and procedures in the gray arena of seeking to do what is right. Join us in person, through teleconference, Skype, or let us send you a recording. Please direct any questions to Renee Howard (Renee.howard@atriumhealth.org). This month's session is entitled **Justice Challenges in Ethics** and will be presented by Ken Nanney, J.D.

GRADUATION PHOTOS

Each year as a gift to graduating students, the College has a large composite photo made of their class. Each graduate receives an 11 X 14 souvenir copy as well as two small individual pictures ideal for your certification exam application. A large framed composite hangs in the lobby for the next 12 months, and a smaller framed version hangs in the portrait hall forever. Stay tuned for more details.
