# **NEW ELECTIVE COURSES BEGIN THIS SUMMER**

Healing Touch - Levels 1 and 2 will be offered this summer as a 2-credit course through the general studies department. Healing touch is an energy therapy in which practitioners consciously use their hands in a heart-centered and intentional way to support and facilitate physical, emotional, mental and spiritual health and self-healing. At the successful completion of this course, in addition to earning 2 credits, you will also receive a certificate of completion from the Healing Touch Program. You will be able to use the skills you learn in this course while caring for your assigned patients. Register for this great opportunity and differentiate yourselves by adding this skillset. The Level 1 component of the course will be taught by Cathy Borysewicz, MSN, RN, HTCP/I and offered on Saturday and Sunday, July 18 and 19. The Level 2 component of the course will be taught by Pardee Henderson, MPH, IBCLC, HTCP/I and offered on Saturday and Sunday, August 1 and 2. Each day the course will run from 8:30 a.m. to 6:30 p.m. Look for this offering listed as HLC 200 in the summer registration material. For questions about the course please contact Cathy Borysewicz in room 106 or via e-mail Catherine.Borysewicz@CarolinasCollege.edu.

<u>Transcultural Nursing</u> - The Belize Experience, with cardiac focus, a 3-credit nursing course will also be offered for the first time. For more details, see the February newsletter or contact Susan Patterson. Enrollment is limited to eight students.

Research and Evaluation - Do you dread research assignments? Wish you knew how to use data-bases like CINAHL better? Would you love a class that walked you through the AHEC databases? Wouldn't that make the research you do in your classes a lot easier? Then look no further than ENG 240: Research and Evaluation a class being offered fully online in summer 2015. This class takes a process approach to research, with a step-by-step guide to the many databases available to you at CCHS. Each week, research skills will be practiced in a safe, hands-on environment. There's an added focus on APA style as well, so if you're looking to ramp up your citation skills, this is the class for you. For more information, contact instructor Shelley Palmer (shelley. palmer@carolinascollege.edu) or Dr. Lori Bequette (lori.bequette@Carolinascollege.edu).

<u>Statistics</u> - Though not new, this 3-credit course will be offered for the first time in three years. This course is generally accepted for transfer credit for BSN completion or other 4-year degrees.

### WE COULDN'T HAVE DONE IT WITHOUT YOU!

In January, the following Student Ambassadors returned early from break to make calls and welcome new incoming students. This newsletter missed the opportunity to say THANK YOU and to let them know how much their efforts were appreciated. New student orientation wouldn't have been the success it was without their dedication and help.

Sarah Bishop, Matthew Cook, Amy Decoste, Emilee Eschar, Jessica Hughes, Kiarra Johnson, Maureen Kelleher, Michelle Kemp, Olivia Myers, Michael Richardson-Lineberry, Hannah Shelton and Christopher Yen. You all are the best!

## **HISTOTECHNOLOGISTS - WE SALUTE YOU!**

March 10 is Histotechnology Professionals Day, created to honor their expertise, knowledge, skill and talent. What do histotechnologists do? In a nutshell, they obtain tissue samples and slice, fix and stain those samples in a way that allows pathologists to make accurate diagnoses, often as the surgeon and pathologist wait. They make a difference in every diagnosis! In histotechnology, excellence is never an accident; it is the result of high intention, sincere effort, intelligent direction, skillful execution and the vision to see obstacles as opportunities. The College salutes the School of Clinical Laboratory Science Histotechnology students and wishes them Happy Histotechnology Professionals Dav!

### STUDENT OF THE MONTH

Congratulations to John Bartniski, March Student of the Month! Nominated by his peers, John is a native North Carolinian and is currently in his fourth semester in the nursing program at CCHS. John is an active member of SGA and he reserves all of the rooms for the study groups in which he participates. John is reliable and is a man of his word. He is very personable and is a leader among his peers. When not attending class or clinical, John works at a doctor's office. He also enjoys playing basketball in his spare time. Congratulations John; enjoy your V-Lot parking!

### **FACILITIES UPDATE**

Bathroom Mirrors: You may have noticed that following the renovation of the bathrooms we are missing some mirrors. With the new sinks and the requirement for handicap accessibility, the old mirrors no longer fit over the accessible sinks. Our building management team has ordered replacements and we anticipate the new mirrors will be installed soon.

Building Temperature: We continue to monitor the temperature in the building and have seen some decline in the reports of extreme temperatures throughout the building. As we get these reports, our building management team is working to adjust the sensors and the thermostats to better regulate the temperature. It appears this is making a difference so please continue to be patient as we address the temperature concerns, but do report temperature extremes to Joy.

# CCHS TST CLINIC

One benefit of attending Carolinas College: Free Immunizations! TST is the Tuberculin Skin Test (TST), part of CHS's safety plan for all patients, employees, and students. An annual TST assesses likely exposure to TB, so you can get the care you need. A TST is required during your birthday month or you can opt to get the test as much as 90 days in advance of your birthday. Free TSTs are available at CCHS in the lobby on March 16, 11:15 to noon. Can't make it? Walk up Loop Road to the teammate health office in the annex building across from the CMC emergency room entrance. Your free TST is available there M - F, 7:30 - 4:30.

# **COMPLIANCE CORNER - Infection Prevention/Isolation Precautions**

Much has been reported recently, both nationally and locally, on the topic of multi-drug resistant organisms or "superbugs," specifically Carbapenem-resistant Enterobacteriaceae or CRE, and other highly resistant organisms (HR-MDRO). CRE, such as Klebsiella pneumonia and E. coli, have been identified in increasing numbers at many hospitals and are highly resistant to antibiotics as a result of overuse of antibiotics. Carolinas HealthCare System is actively addressing this issue through its Antimicrobial Support Network, which provides best possible clinical outcomes for treatment and prevention of drug resistant organisms while minimizing antimicrobial resistance. The presence of CRE infections in healthcare facilities is an ongoing national challenge and Carolinas HealthCare System wants to assure you that they are well aware of CRE and have taken aggressive steps to address any cases that arise.

CHS has been aggressive in its efforts to prevent CRE infections, and uses procedures and protocols that go beyond industry standards. They include:

- Placing any patients with CRE in isolation, requiring all who enter the room to wear gowns and gloves and to practice rigorous hand
- Using equipment in the room that is dedicated to patients with CRE.
- Performing room cleanings on a daily basis.
- Enhancing the high-level disinfection process for cleaning duodenoscopes. All duodenoscopes that have been tested across the System have shown to be negative for CRE.

These infections are spread by person-to-person contact, and by touching contaminated surfaces. They are more prevalent in patients who are immunosuppressed, have invasional lines, have long hospital or nursing home stays or who have taken many types of antibiotics. The key to containing the spread of HR-MDRO is to follow isolation precautions. In the hospital, please remember to:

- Wash your hands when entering and leaving a patient's room.
- If a patient is on HR-MDRO isolation precautions you must always wear a gown and gloves when entering the room.
- Isolation supplies must be stocked outside the patient's room.
- Dedicated non critical equipment must stay in the room for multiple use.
- Insist on compliance with regard to isolation technique.

Compliance with Infection Control can go a long way in containing the spread of infection.

# FROM THE BUSINESS OFFICE...March Money Tips for Students

**Understanding pay stubs -** Understanding the information on the pay stub is vital to managing your money and budgeting. Each company's pay stub is different, but all employers in the United States must include the following items:

- So Gross Pay: What you earned that pay period before any taxes or benefits, such as insurance, were withheld.
- Net Pay: Your take-home pay after all the taxes and benefits have been deducted from your gross pay.
- Federal Tax Amount: Federal income tax might be abbreviated as Fed Tax, FT or FWT. This is how much was withheld to pay your federal taxes, based on the W-4 form you filled out when you were hired.
- State Tax: State taxes might be abbreviated as St Tax, STW or simply by the abbreviation of the state in which you reside (for example NC).
- Local Tax: Some cities, counties or school districts require you to pay a local tax. You may not have this tax withheld if you don't live or work in an area that assesses these taxes.
- Social Security Tax: Social security tax might be abbreviated FICA, SS, SSWT or OASDI. The federal government requires that 1.45% of your wages be withheld.
- Medicare: Medicare tax might be abbreviated MWT or Med. Like Social Security taxes, the federal government requires that 1.45% of your wages be withheld.
- Year-to-date (for pay and deductions): The year-to-date fields show how much you have earned up to that point, as well as what has been deducted for each tax or benefit.

Information reprinted from KHEAA Finance and Administration Cabinet "Money Tips for Students."

# **CULTURAL & RELIGIOUS DIVERSITY: Understanding and respecting others' beliefs.**

Charlotte's increasing diversity is reflected in the patients we serve. A culturally competent provider knows that religious beliefs can bring comfort to patients dealing with illness, pain and stress. Occasionally, your CCHS Newsletter features some of the current month's days of cultural and spiritual significance.

#### March 1

Ayyám-i-Há ends – **Bahá'í.** Ending of the intercalary days for festivities, gift giving, and charitable actions. Orthodox Sunday – **Christianity** (**Eastern churches**). A celebration of the restoration of icons, which had been banned from Byzantine churches in the seventh century. The Christian empress Theodora ordered them restored in 843 C.E.

#### March 2

'Alá – **Bahá'í.** The beginning of the nineteenth and final month, meaning "loftiness," and also of a 19-day fast in preparation for Naw Rúz [see *March* 21]. Adult believers in good health abstain from food and drink from dawn to dusk.

#### March 4

Eve of Purim – **Judaism.** A celebration of the Jews' rescue from an evil plot to destroy them while they were living in Persia, the events of which are recorded in the Hebrew biblical book of *Esther*. The holiday includes reading the Megillah (the scroll of Esther), exchanging gifts, and special pastries called *hamantashen*.

#### March 5

### CCHS ALUMNI RECOGNIZED FOR EXCELLENCE

This email, sent to hundreds of CHS's Central Division teammates, highlights the excellence of two CCHS alumni: Amy Sweezy ('09 and '13) and Katie Capozzi (2011). The physician's message has been edited for brevity and the spelling of Katie's name corrected. CCHS is proud of all its alumni but this month Amy and Katie top the list!

"[Dr. Hill and I] performed likely one of the largest sarcoma resections in the history of CMC this past Sunday being well over 30 cm in size extending from the diaphragm of the chest to the rectum in the pelvis nearly taking up the entire abdomen. [The nurse manager assigned...] Amy Sweezy (who is our best GI/GU surgery technician) and Katie Capozzi (who is a young nurse but rapidly grown to become a very experienced OR nurse). In addition to a great anesthesia team, we were able to get this tumor resected safely. This is not a tumor that could be resected at many centers outside of the typical high level international centers such MD Anderson, Memorial Sloan Kettering, Cleveland or Mayo Clinics. We should be very proud to be performing this type of high level work at Carolinas Medical Center. My hat goes off to Dr. Hill, Amy Sweezy and Katie Capozzzi for making this surgery go off without a hitch on a Sunday."

Tracy's office will be at Mercy Hospital.

# **STUDENT NURSES ASSOCIATION (SNA)**

On Thursday, February 19, twenty-five CCHS students came to hear CHS RN Kim Buchanan talk about what it's like and what it takes to be a flight nurse. She spoke of her love for the job, its highs and lows and answered student's questions on how to enter the field. Thank you. Kim!

On February 12, the SNA board (Christine Perzinski, Chris Yen, Gary Humphries, Jennifer Edwards and Brittany VanDerMeid) presented "How to Succeed in Nursing 101." They shared tips in the hopes that the new fundamentals class could benefit from the experience of the intermediate students. Hopefully, the discussion relieved some school-related stress and will help all the 101 students succeed!

A general meeting for all SNA members is scheduled for Thursday, **March 19** at 8:00 a.m. Be sure to mark your calendars!
