

COVID Safe Care Donation Guidelines

At Levine Children's Hospital safety is our number one priority. We have established these guidelines and safety measures to ensure the safety for our patients as well as our generous donors. We truly appreciate your generosity and thinking of our patients.

- All donated items must be new with tags or in original packaging.
- Due to current COVID restrictions, we are unable to accept stuffed animals and handmade items.
- Toys must be able to be cleaned and sanitized.
- Delivered items should be double bagged in new large trash bags (preferably clear) at point of assembly so the outer bag exposed in transport can be easily disposed at delivery.
- All donations must be scheduled and delivered outside Levine Children's; donors will not be allowed inside the hospital. A staff member will meet you in the circle to accept the donations.
- Donations will be accepted by appointment only. Appointments available on Tuesdays, 10:00am-2:00 pm, Thursdays and Fridays, 3:00pm-5:00pm. Please email carrie.keuten@atriumhealth.org to schedule a time.
- Upon arrival at Levine Children's, please call 704-381-7328 or 704-381-2310. We will come outside to meet you.
